ers cabled, and they reported that the London market was dead. Their trans-actions here on arbitrage account did not amount to 5,000 shares.

The crowd in Central Leather was the largest on the floor of the exchange. Apparently many buying orders have been put in the common stock from inside sources. There was good buying of the Steel shares, Chicago Great Western, Corn Products, and many of the low-priced issues were in demand at advancing prices.

Great Northwestern Goes Up.

Great Northwestern was bought by practically the same houses that were puchasers of the stock yesterday, and advanced it to 321 against 318% at the close yesterday. American Tobacco issues were also strong, and were prominent features in a generally dull market. Government bonds were unchanged; railroad and other bonds fairly firm and active.

PRICES SOLD OFF

IN COTTON MARKET NEW YORK, Oct. 14.-While there was a good deal of week-end covering at the start of the local cotton market this morning influential selling from one or two quarters was in such volume that prices sold off. The first quotations

were unchanged to three points lower and within ten minutes after the start were five points under the close. It was asserted by leading bears that the new cold wave in the northwest would not extend far enough south to threaten cotton and they used this as one of the selling influence. Later new buying developed and prices quickly regained the loss.
